Science	2	3^b	3^b
Electives	6^c	3	4
<i>TOTAL</i>	24	24	26^d

*The High School Diploma is available by administrative approval only.

- a. Some colleges and universities require Algebra 1 as a fourth unit of mathematics. We offer this class in eighth grade; as such it does not count as a high school unit. Two of the units must include Geometry and Algebra 2.
- b. Physics, Biology, and Chemistry are the three sciences required for the College Preparatory and Scholars Diplomas.
- c. Elective Recommendation: Additional core courses (English, Mathematics, Science, and History) are strongly recommended.
- d. At least four of these units must be Advanced Placement (AP) classes. AP credit will not be earned if a semester grade is less than a C-. A minimum cumulative GPA of 3.500 is required for grades 9-12.
- e. Both years must be in the same language. In order to take an AP examination in a language, a student needs 4 years of that language.
